JOOUST Advances EU–Africa Collaboration at Horizon Europe STREAMING General Assembly in Tunisia

Jaramogi Oginga Odinga University of Science and Technology (JOOUST) represented by Prof. Christopher Obel-Gor and Dr. Mary Orinda participated in the HORIZON-STREAMING Project Midterm Evaluation Workshop held at the Vincci Resort Hotel, Djerba Island, Tunisia under the Horizon Europe programme. Convening Partners from Europe and Africa are collaborating to accelerate innovations in sustainable agri-food systems and trade regimes with Europe and Africa. The Workshop reviewed project progress and milestones, strengthened cross-regional and institutional collaboration to identify and promote innovation and climate resilient crops and aligned research outputs with policy priorities and market needs.

JOOUST reaffirmed its leadership in climate-smart agriculture and community-driven innovation, contributing to discussions on strengthening value chains, enhancing research–industry linkages, and promoting inclusive participation of youth and women enhancing her role in driving locally grounded, globally relevant, and impactful interventions.

The university continues to play a pivotal role in STREAMING Consortium collaborations by contributing expertise in Agribusiness and food trade systems research, Community-based innovation, knowledge transfer, and Capacity building among relevant Stakeholders

The University’s continued engagement underscores its growing global footprint and dedication to driving sustainable development through research, innovation, and strategic partnerships.
